GRAVITY SOFTWARE

MICROSOFT POWER BI

TRANSFORM DATA INTO
REAL-TIME RICH VISUALS

IS YOUR DATA PROVIDING VALUABLE INSIGHTS?

When your key data is disseminated throughout your files in many different forms, however, you may find it tricky and time-consuming to compare apples to apples in a meaningful way that provides valuable insights. That can make compliance and daily record-keeping challenging and meaningful financial strategy nearly impossible.

Bring your data to life with Gravity Software™ and Microsoft Power BI. Transform your company's data into real-time rich visuals so you can focus on what matters to you most.

Features

● Customize and clearly display graphs, charts and other visuals

● Continuously view crucial data in real time, anytime and anywhere you need it

● Automatically collect and present data on a single dashboard to keep you consistently updated on key metrics

● Share rich visuals at will through any device, allowing for easy collaboration and governance

● User-friendly setup that even entry-level staffers can handle it quickly and easily

● Explore data with easy to use drag-and-drop capabilities

● Data can come from basic sources such as Excel workbooks, factory sensors or social media sites, or may be mined from multiple databases and cloud sources to create complex reports
